<b>Sl. No</b>	<b>Stakeholders</b>	<b>Consolidated Feedback</b>	<b>Action to be taken</b>	<b>Action Taken</b>
<b>1</b>	<b>Students Feedback</b>	The majority of students firmly believe that the curriculum meets both industry and student expectations, helps them make decisions and solve problems in real life, shapes their personalities, helps them solve problems locally and globally, supports higher education and employability, and fosters entrepreneurship and lifelong learning. The majority of students concur that the approach employed improves experiential and participatory learning. The overwhelmingly positive feedback suggests that the program is well-designed and successfully satisfies students' needs.	Assist employers and other organizations in meeting industry and employer expectations. Organize seminars and invite industry professionals to give guest lectures.	The industry will drive the summer internship program.  Pedagogy should incorporate more fieldwork and case studies.  The capstone project will be faculty-led.
<b>2</b>	<b>Alumni Feedback</b>	The courses include emerging management topics and cultivate critical abilities including soft skills, leadership, and communication. They are also in line with industry needs. Professional preparation is improved by gaining real-world experience through internships and capstone projects. Specialized classes help people get jobs, start their own businesses, or pursue higher education. Values and ethical ideals are ingrained throughout the curriculum.	Maintain the program's emphasis on experiential and participatory learning by giving students chances to work with peers, complete real-world projects, and participate in hands-on activities..	There were invited CEO speeches, Special Talk sessions, and guest lectures planned.  It was determined that level 1 and level 2 Arabic, French, Japanese, and Hindi instruction would be provided in the fourth and fifth trimesters, respectively.
<b>3</b>	<b>Teachers Feedback</b>	The program has received overwhelming positive feedback from the teachers, who all rated the course as either good or exceptional. They are especially happy that the course has given their pupils a comprehensive educational experience, assisted them in making decisions and resolving real-life situations, and prepared them for jobs and entrepreneurship. They also respect	Create curricula and homework that give students the chance to improve their soft skills—communication, leadership, and teamwork.	Pedagogy should incorporate more fieldwork and case studies.

		the fact that the value-added courses are practical and improve learning, and that the curriculum is based on industry requirements. Overall, the feedback points to the program's ability to fulfill students' requirements and deliver a top-notch educational experience.		
4	<b>Employer Feedback</b>	The curriculum places a strong emphasis on applying contemporary computing tools, communicating well, and gaining competences and understanding in functional domains. Additionally, teamwork, leadership, and the use of both quantitative and qualitative methods are urged of the students. IT proficiency is improved together with the integration of ethical concerns. It encourages innovation, creativity, and ongoing self-learning.	In an attempt to meet business expectations, efforts are made to raise student competency levels and get them ready for the workforce.	A new rule is set to take effect in 2019 and is designed to improve students' knowledge and abilities while emphasizing their overall growth.
5	<b>Parents Feedback</b>	According to the survey findings, the majority of parents were satisfied with several program elements, such as the standard of instruction, the examination structure, and the availability of computer laboratories, value-added courses, and opportunities for hands-on learning. They also mentioned how the program has helped them learn and how well the courses have prepared them for jobs or starting their own business. These encouraging comments imply that the program is fulfilling the parents' requirements and giving them an excellent educational experience.	Sufficient measures have been implemented to provide additional training on job placement and arrange value-added initiatives aimed at improving students' employability.	Students participate in fieldwork, internships, and real projects.
