Action taken report from Stakeholders recommendations (2019-2020)-ODD Semester

S.No	Stakeholders	Recommendations	Action to be taken
1	By Industry Experts	Mr.V.Vinoth, Project Manager, L&T, Mysuru proposed rephrasing the Electrical and Electronics Engineering curriculum.	The curriculum for Electrical and Electronics Engineering has to be updated appropriately.
2	By Alumni	There were recommendations made to implement skill-oriented courses.	As recommended, skill-oriented courses will be added to the curriculum in the future.
3	By Academic Experts	The biology curriculum for engineers is extremely detailed and needs to be expanded upon.	The syllabus of Biology for Engineers will be revised and more topics relevant to Biomedical basics need to be included.

Action taken report from Stakeholders recommendations (2019-2020)-EVEN Semester

S.No	Stakeholders	Recommendations	Action to be taken
1	By Industry Experts	Mr.Arunesh Karthick, Lead System Engineer, GE- Healthcare, Bangalore, suggested to include practical experiments / hands on training and to train students in terms of handling and operations of medical devices with hospital support.	Hospital Training courses and hands on training need to be included.
2	By Alumni*	There were recommendations made to place more of an emphasis on the field of study's applications. Give inter-disciplinary activities in multiple courses more attention.	Interdisciplinary activities for enhancing technical skill will take place in the upcoming semester.
3	By students	Pupils have stated that they would like help choosing online certification programs.	For each year, the relevant class counselors and BoS members must determine which essential NPTEL-SWAYAM courses are relevant.
4	By Academic Experts	Suggestions were given to convert few experiments to demo or study experiments in Anatomy and Human Physiology Laboratory Course	The syllabus of Anatomy and Human Physiology Laboratory need to be revised.
5	By Parents	Few parents recommended adding more interesting and practical components to the curriculum.	It would be helpful to implement more demo sessions and online teaching tools.
