Action to be taken on Feed Back Form from Stake holders (2021 – 2022) – Odd Semester

Date: 26.05.2021

S.No	Name of Stake Holder	Nature of Stake Holder	Feedback	Action to be taken
1.	Akkalesh S P	Student	In additional to our Civil Engineering courses, other multi-disciplinary courses may be included in the curriculum to enrich the knowledge. Entrepreneurship courses may also include to help the students	Entrepreneurship course has to be introduced as open elective course.
2.	MADHAN N	Student	In our curriculum, mini project may be included which will be useful to the students. The course may be included in any semester before entering into the main project work	Innovative project as new subject is planned to be included.
	Prof.S.Saranya	Teachers	In the sixth semester, already most of the subjects seems like problematic subjects, so students may feel difficult to cope up with the entire curriculum. So estimation lab may shift to seventh semester which will be easy for the students as well they can understand basic concept easily	The course has to be shifted to seventh semester.

4.	Prof.S.Prabhakaran	Teachers	For the Design of Steel Structures subject, 3 credits have been assigned. All the units are problematic, so need more hours to cover the all topics.	For Design of steel structures, hours has to be increased in the time table.
5.	G.Rajinikanth Golden Arc Construction	Employer	To easy understanding of building rules and regulations, some important building code provisions may include	Important building code provisions has to be included in the housing planning and management course.
6.	P.Gurumoorthy Smart Infra tech Developers	Employer	Now-a-days many modern technologies have been entered in all Engineering field. In that, Innovative technologies like Drones, AR & VR and 3D printing are plays a major role in the field of Civil Engineering	Advance topics like drone surveying and IoT courses has been introduced in the elective courses.
7.	Gokul. S URC construction Pvt Ltd	Alumni	In the foundation Engineering course, the basic concept of combined footing and its practical application may be included and also other advanced topics may also include in that subject to enhance practical field knowledge in Civil Engineering field.	The mentioned topic has to be added in the foundation Engineering course in the sixth semester.
8.	Hari soundappan ECGC Limited	Alumni	In the computer aided lab, include creating BIM model to know the basic knowledge to draft the building plans.	BIM topic has to be added in the laboratory course.
9.	Srinidhi V Infosys	Alumni	To improve the practical knowledge in the field of Civil Engineering, other than the	Software courses have to be planned for the students through the continuing

			regular subjects short term courses may be include	education centre.
10.	P.Gayathri Devi	Parents	Modern computer courses may be introduced which will be help in civil engineering field and students carrier	BIM topic has to be added in the laboratory course.
11.	A.PannerSelvam	Parents	To make the students more practical and field exposure, arrange some industry lecture through industry	Industrial guest lecture has to be planned.

Action to be taken on Feed Back Form from Stake holders (2021 – 2022)- Even Semester

Date: 25.11.2021

S.No	Name of Stake Holder	Nature of Stake Holder	Feedback	Action to be taken
1.	Anand S	Student	To enhance the advance knowledge and to get shine in the modern trends of civil engineering field, the modern advanced courses like AR & VR, IoT, 3D printing, BIM etc., may be include in the curriculum	Training for the software has to be given through a special courses and in laboratory courses.
2.	S.Kavyaa	Student	To enhance the practical exposure in the Civil Engineering field, Site visits and internship training programmes may be arranged in the semester vocation	Industrial Internship course has to be introduced.
3.	Dr.D.Jegatheeswaran	Teachers	In the Design of Reinforced Concrete Structures course, may include the basic concept of working stress method to enable the students to understand the basic concept of reinforced concrete structures	Basic concept has to be added in the Design of Reinforced concrete course.
4.	Ms.G.K.Monica Nandhini	Teachers	In the Municipal Solid waste management course, advanced techniques may be included for waste disposal.	The concerned topic has to be included in the course "Municipal solid waste management".

			The waste generation of construction waste, demolition and disposal method may be included	
5.	Sasikumar N Shri BalajiGeotech	Employer	To bridge the gap between theory and practical, some subject may be introduced and bridge with industry persons. By having lecture by the industry persons, students may get more practical exposure which will be very useful for the students' carrier.	Practical exposed lecture by Industry Experts has to be planned for the students.
6.	Yuvaraj M	Employer	To create the more creative and innovative idea to the students, innovative model making or Innovative project may include as a subject to the students and include practical internship training.	The new course "Innovative Project" has to be introduced.
7.	Akash M Skytree consulting engineers	Alumni	Modern Civil Engineering software tools like BIM, IoT etc., may be include in the subject to enhance the advanced knowledge in Civil Engineering field and also students may trained in the EXCEL software for preparing Estimation which widely practicing in the field.	BIM topic has to be added in the laboratory course. Estimation through excel sheets has to be included in the estimation lab course.
8.	P.Raja	Parents	Apart from regular curriculum	Software courses has to

			part, other short term courses may be introduced	be planned to the students through the continuing education centre.
9.	M.Janarthana Babu	Parents	Introduce advanced courses in the civil engineering field to know the modern technology	Advance topics like drone surveying and IoT courses has to be introduced in the elective courses.
