**Action to be taken on Feed Back Form from Stake holders (2022 – 2023) – Odd Semester**

**Date: 25.06.2022**

<b>S.No</b>	<b>Name of Stake Holder</b>	<b>Nature of Stake Holder</b>	<b>Feedback</b>	<b>Action to be taken</b>
1.	JANARTHANAN .A	Student	Addition of Online course through NPTEL, course era will help us to learn more fundamental in subjects and it will help us test our potential too	To improve standard level of teaching & learning NPTEL course in the fifth semester is has to be added in the curriculum .
2.	RAVINDRA.PL	Student	Multidisciplinary course in curriculum will update our knowledge skill in our technology based core subject and provide in depth skills about advancement in structures	To bridge the gap between theory and practical, the inclusion of minor course has to be introduced in the curriculum .
3.	Dr.M. Logeshkumar	Teachers	For the subject contract laws and regulations include some of the case studies so that students can enrich their knowledge	Case studies has to be included in the curriculum for the contract laws and regulations subject
4.	Prof.S.Saranya	Teachers	Practical knowledge will be gained only through internship so, in our curriculum ,suggest to increase course credit of 1to 2 credits	To improve their practical knowledge of the as per suggestion , internship course credit have to be increased .
5.	BAKIYARAJ .A INFRA CONCRETE	Employer	Inclusion of industrial training course in curriculum will give students wide knowledge about basics and advanced technology utilizing in industry for solving	To bridge the gap between theory and practical, the BIM course has to be introduced .

			problems in site work	
6.	CHENNIMALAI.R CD CONSTRUCTION	Employer	Addition of industrial training in the curriculum will update the students' knowledge from theoretical to practical exposure	The new course internship has to be introduced in the seventh semester .
7.	SUTHI.G PINNACLE INFOTECH SOLUTION	Alumni	By providing energy efficient related course to students in the curriculum will enhances the their thinking skills towards design building with reduce energy use, reducing energy wastage etc	In open elective course , energy efficient related course has to be included in the curriculum.
8.	NAVIN.S JSW STEELS	Alumni	By including multidisciplinary course in the curriculum will add some value to their knowledge and it can raise the bar of education. Students can choose their favorite course by implementing multidisciplinary education system in the curriculum	To improve the students' knowledge in all vertical , honors and minors course has to be included in the curriculum.
9.	Shanmugakumar M S	Parents	The introduction of contemporary computer courses will benefit both students' careers and the area of civil engineering.	BIM topic exercise has to be added to the CADD Lab.
10.	Suresh M	Parents	Additional short-term courses could be introduced in addition to the standard curriculum.	short-term software courses has to be set up for the students

Action to be taken on Feed Back Form from Stake holders (2022 – 2023)-Even Semester

Date: 24.12.2022

S.No	Name of Stack Holder	Nature of Stack Holder	Feedback	Action to be taken
1.	YUVAN.T	Student	Inclusion of industrial lecture along with site visit will explore our knowledge level to next level. Will help us to gain some field exposure	Industrial lecture training has to be added in the curriculum.
2.	PREMKUMAR.M	Student	Taking students to site visits for the respective subjects will help us to gain more practical knowledge in real time construction work and students can monitor quality of work progress in site visit	Industrial visit has to be planned for all year students.
3.	Prof.A.Meenachi	Teachers	Recent trends and advancement in the bridge engineering subject can be included.	Mentioned topics can be included in the subject.
4.	Prof.S.KALAISELVI	Teachers	Change the credits from 1 to 2 for estimation and quantity surveying lab course.	Estimation and quantity surveying lab course credit has to be changed from 1 to 2
5.	BAKIYARAJ .A INFRA CONCRETE	Employer	Inclusion of industrial training course in curriculum will give students wide knowledge about basics and advanced technology utilizing in industry for solving problems in site work	The BIM course has to be introduced in the curriculum.
6.	D.RAJAN	Alumni	Addition of advance software	advanced software

	RAAJ ASSOCIATES		courses like BIM in the curriculum will envelope the students' knowledge and they can able to solve live project works in on progress in site through software skill	course like BIM has to be included in the syllabus
7.	AVVA NAVYA LARSON&TURBO	Alumni	Industrial lecture training program for the students will improve their practical skills. Students will comes to know about real time problem solving techniques in on-site & off-site while they in job site	Industrial lecture training program through internship training has to be included as on course
8.	Subramani S	Parents	Plan some industry lectures through industry to provide the students more hands-on experience and exposure to the real world.	The course industrial lecture has to be included as a new course.
9.	Pachamuthu C	Parents	Introduce advanced programmes in civil engineering so students can learn about contemporary technology	The elective classes has to be introduced like advanced subjects including drone and IoT courses.
