List of few courses that can be removed from the curriculum (With Reasons)

Python, Database MySQL and MongoDB, React js and Angular js, Testing based books.

List few course names that can be added specifically to match the latest industry trends

Strengths of BE CSE curriculum *

The course covers a wide range of topics while merging computer programming and networking fundamentals. Only a few of the concepts covered in Computer Science are logic, algorithms, abstraction, and computability. Software engineering, networking, distributed databases, information processing, programming languages, and a variety of other topics are covered. And more subjects is an enthralling and one-of-a-kind innovative subject that inspires us to pursue creativity and technology

Weakness of BE CSE curriculum *

Some topics are out of date. If it is current, it is simple to apply in the real world. It is also useful for problem solving. More advanced and up-to-date courses are required to gain knowledge in the computer science domain. Instead of more theory classes, we needed lab sessions to improve our skills. Furthermore, as a newcomer, we have no experience, so if there is any hands-on problem solving, we can gain valuable experience and find it easier to advance in our careers.

ALUMNI SURVEY FORM

Dear Alumni,

We are encouraged by the success of our alumni shown in the workplace and in the enrollment and performance in the higher studies. This survey is done for the purpose of evaluating the achievement of the faculty of electronics and communication engineering program educational objectives (PEOs), which is one of the major components in adopting and implementing outcome based education (OBE) concept. We collect survey from our alumni in order to obtain information which will be helpful in department planning and guiding the current students. The questionnaire shall take approximately 15 mins to complete and we value your honest and detailed responses.

Our sincere thanks for your cooperation.

Dear Alumni,

We are encouraged by the success of our alumni shown in the workplace and in the enrollment and performance in the higher studies. This survey is done for the purpose of evaluating the achievement of the faculty of electronics and communication engineering program educational objectives (PEOs), which is one of the major components in adopting and implementing outcome based education (OBE) concept. We collect survey from our alumni in order to obtain information which will be helpful in department planning and guiding the current students. The questionnaire shall take approximately 15 mins to complete and we value your honest and detailed responses.

Our sincere thanks for your cooperation.
