Action has to be taken on Feed Back Form from Stake holders (2020 – 2021)- Odd Semester

Date: 11.05.2020

S.No	Name of Stake Holder	Nature of Stake Holder	Feedback	Action to be taken
1.	Kavina P	Student	Representing student's view that, though we studied surveying as a subject and in lab, it didn't give us a very good exposure to it. If survey camp is provided, it will be easy for the upcoming students to know the concepts well and they can opt surveying as their career choice.	Survey camp has been planned for the practical exposure.
2.	ARAVINDKUMAAR.A	Student	Sir though we are strong in academics and practical knowledge, we didn't get platform to expose it properly. If subjects like Innovative projects are been added it will be a very good platform to us to show case our hidden talent. It will be useful for the upcoming students to prove themselves and know new things and they'll be in search of those new things.	Innovative project as new subject is planned to be included.
3.	Prof.S.Saranya	Teachers	There are many inventions and innovations that are going on in concrete. Students are not	The mentioned topic has to be included in the syllabus.

			<p>updated with those inventions and innovations. Now in trend Geopolymer plays a major role. If Geopolymer is added in the syllabus, it will be easy in terms research aspects, change of new materials, etc..</p>	
4.	Prof.S.Thirumurugan	Teachers	<p>Now analysis and design are carried out in Staad pro. But ETabs can do it better and precise and faster and it can do earthquake loads too. If students are given that it will be wise for them. Though it can't be given in curriculum, it can be given as a value added course or credit course</p>	<p>Value added courses has to be planned and conducted through Continuing Education Centre like Staad pro and Etabs.</p>
5.	<p>Yuvaraj M YuvaGoestruct Engineering Infra</p>	Employer	<p>Many IT companies/core companies like L&amp;T, Saporjipallonji, Capgemini, TCS, are in need of civil candidates who knows Internet of things to a certain level. If such topics are provided to students it will be easy for the company to hire such students and train them once they join the industry. Kindly do encourage and provide courses like IoT.</p>	<p>Syllabus framing has to be considered for Internet of things which has to be added as elective subject.</p>
6.	<p>G.Rajinikanth Golden Arc Construction</p>	Employer	<p>As days go ,CAD to REVIT has been established and now BIM has come. BIM Plays a good role in construction in the</p>	<p>Training for the software has to be given through a special course.</p>

			present and it will have an impact in the industry till the next technology comes. If student has knowledge in BIM then he can sustain in the industry forever.	
7.	P.Suganya Highways Dept	Alumni	There's always been a question like: what's innovative in your project, what have you done innovatively, Giving a problem and asking them the innovative solution etc... It will be very good for the students if innovative projects are included in their curriculum	In the Curriculum, Innovative project as new subject has to be included.
8.	S.Sruthi Preparing for Govt Exam	Alumni	DRC and DSS are part of curriculum to all the civil engineering candidates, though they are sound technically, practically they are weak in it. If structural designing cad lab is provided or included to them it will create a strong base to them	Laboratory course related to structural design practice has to be included in the curriculum.
9.	Ravindran C	Parents	Give more practical oriented training in all subjects.	Practical oriented assignments has to give to all subjects.
10.	V.Sujatha	Parents	Need more industrial visits	More industrial visits has to be planned.

Action to be taken on Feed Back Form from Stake holders( 2020 – 2021)-Even Semester

Date: 03.12.2020

S.No	Name of Stake Holder	Nature of Stake Holder	Feedback	Action to be taken
1.	Dineshkumar K	Student	Value added courses are provided to us it will be easy for us to know new things in career aspects as well as we'll be used to it at the end of academics.	At the end of the semester, value added courses has been planned and conducted through Continuing Education Centre
2.	MEKALA BALASUBRAMANYAM REDDY	Student	Depth knowledge are provided in platforms like NPTEL, Spoken tutorial, Udemy, Coursera etc.. If they are motivated and provided to students it will be worth doing for them. As it increases knowledge and makes them get extra credits and they are certified too.	Students have been encouraged to register various online courses like NPTEL.
3.	Prof.R.Renuka	Teachers	Concrete lab experiments are same as old days and it too haven't been revised.	Concrete lab experiments has to be revised.
4.	Prof.B.Prabu	Teachers	Surveying field is now updated with drones and it can't be fully being taught unlike other subjects, since it doesn't involve any such complex concepts. It can be added as hands on training.	Topics related to Advanced survey techniques has to be planned and included in the syllabus.

5.	Sasikumar N ShribalajiGeotech	Employer	As a recruiter, we expect few advance topics to be known by students. In surveying drone plays a major role now a days. If you provide drone surveying in your curriculum, then it will be easy for us to go with them.	Topics related to Advanced survey techniques has to be planned for the syllabus.
6.	Gurumoorthy P Smart Infra Developers	Employer	3D diagram makes clients easily understandable and gives them a convenience in knowing the structure. Companies are in search of candidates who are qualified in Revit. So if they are taught Revit then it will be useful for them.	Training for the software has to be given through a special course.
7.	Sathya Narayanan Sky Tree Consulting Engineers Pvt Ltd	Alumni	Internship opportunities can be provided to the students. If it is provided, can get placed in their dream company.	Internship as a course for students has to be introduced in the curriculum
8.	S.Sowmyah Higher Studies	Alumni	If Revit is taught to students it will be helpful for them in their career aspects.	Software training has to be given through a special course.
9.	P.Kavitha	Parents	Give more practical oriented training in all subjects for placements	Practical oriented assignments have to be given to all subjects.
10.	S.Nagendiran	Parents	Give more training for higher studies	Moodle training to be given to help in entrance exams.
11.	Kathiravan G	Parents	Give more exposure to sites of construction	More Industrial visits has to be planned.
