100	P		RMK Engineering College	Chennai 192

BA Psychology (honours) student: "As part of the psychology course I got opportunities to participate in sessions on mental health and LGBT community. Besides this there were many inter-disciplinary sessions in which I participated and had a broader overview of the things besides the curriculum." She is heading for a course at Harvard Business School.

Things are a bit different at St Xavier's College in Mumbai as it is an autonomous college. It has its own syllabus, and it ensures that the syllabus is not only challenging but also relevant to the needs of industry and society.

"Our methods of testing and assessing the educational growth of students vary from presentations to assignments to exhibitions to actually going out on the streets and engaging

with the real world and then writing reports on it and later defending the reports," said the principal, Dr Agnelo Menezes. "For instance, our microbiology department carries out water testing in poor residential areas of the city. Every student has to put in 60 hours of social activity, as we believe that when the heart is touched by direct experience the mind is compelled to change. As students are encouraged to do an internship between the 4th and 5th semesters they are exposed to the job market and that is a win-win for the students as well as future employers."

The college keeps on introducing new courses as per the demand and requirement of the changing times. "The new courses that are emerging are public policy and biosciences. In humanities, psychology, literature

and economics are in demand. In sciences, we have noticed that there is an increasing demand for life sciences and microbiology," said Menezes.

Innovation is the key also for the professional colleges. National Institute of Fashion Technology in Delhi, which is easily the best in India to study fashion technology, constantly tries to bring in innovation and improvement in order to distinguish itself from the scores of fashion technology institutes in the country. "Our strength is that our courses are completely based on merit and we keep on evolving ourselves by adapting to new changes in fashion technology such as mimicry in fashion which means fashion inspired by nature," said Dr Vandana Narang, campus director, NIFT, Delhi.

The institute has 32 international
