Sona College of Technology: Quality Education before Placements

By John Angami

C. Valliappa,
Chairman

Established in 1958, the Sona Group of Institutions has built unmatched reputation for offering quality technical education. Encompassing the top ranking Thiagarajar Polytechnic College and the most sought after Sona College of Technology, the group stands tall as an endearing shrine for excellence in education. Founded in 1997 Sona has 25 research centers to nurture young minds towards inventions for the betterment of the society. The institution has 100 percent placement record, with over 220 companies lining up to recruit students. Some big industrial players that recruit include Accenture Inc, Cognizant Technologies, Essar Steels Ltd, HCL Technologies, JSW Steels Ltd, Wipro Technologies, Aircel Ltd, Infosys Technologies, Tata Consultancy Services, Hindustan Motors Ltd, Hexaware Technologies, Honeywell Ltd, Convergys Information

Management, Birla Soft, Mphasis Ltd, Tech Mahindra and CapGemini Ltd.

“For far too long the focus of institutions has been on the intake and placement of students. This has not only led to poor work efficiency but also led to a lot of fresh graduates not knowing which jobs to be in. Institutions should focus more on imparting quality education and create courses which will be useful to the industries coming up now. Such programs can not only solve industrial problems but also cater to the needs of the society,” says Dr. V. Jayaprakash, Principal, Sona College of Technology.

The college focuses on framing their syllabus based on the industrial requirements. With over 70 plus PhD holders, the faculty ratio is 1:13, which helps them ensure every student learns exactly what is required from them, once they graduate. Today, every department in the
