

Department: **SCIENCES**

S. No.	Name of the Supervisor	Supervisor No	Name of the Scholar guiding	Date of enrolment	Title of the Research
1.	Dr. C. Shanthi	2570015	M. Muthukrishnan.	Jul-2015	Synthesis and Characterization of pectin based biopolymer membranes for electrochemical applications
			P. Kavitha	Jan-2017	Synthesis, Characterization and Applications of some Nano Structured Materials
2.	Dr. Rajasri Sen Jaiswal	2170462	K. Thirumala Lakshmi	Jan-2018	
			M. Siva	Jan-2018	
3.	Dr. S. Radjarejesri	2470446	-		
4.	Dr. A.P. Uthirakumar	1001342	M. Devendiran	Jan-2018	Nanomaterial synthesis, Characterization and their various application
5.	Dr. T. Maruthavanan	2170332	-		
6.	Dr. M. Raja	2370447	-		
7.	Dr. N. Panneer Selvam	2170410	G. Chinnsamy	Jul-2017	Using organic and Vanadium catalyst to synthesis of vitamin e acetate , posaconazole and heterocyclic compounds through single step reaction
8.	Dr. C. Saravanan	2670021	K. Elavarasan	Jan-2016	Conjugated low band gap polymer and small molecules for bulk heterojunction organic solar cells, the effect of mobile morphology on the photo voltaic properties
			K. Dhineshkumar	Jul-2019	Pyrane based molecules and their polymers for

					Organic solar cells
			S. Viswanathan	Jul-2016	A systematic study of benzoselenadiazole based fluorescent probes for anion sensors
9.	Dr. R. Venkatesh	307008	-		
10.	Dr. P. Sangeetha	3870001	-
